Every Hilleberg tent comes with outer tent, inner tent, guy lines with line runners, poles, pegs, stuff bags for tent, poles and pegs, spare pole section, repair sleeve and instructions.

“Minimum Weight” refers to the outer and inner tents and the poles only. “Packed Weight” includes all items that come with the tent.

\*“Packed size” is measured with the poles and pegs, both in their bags, rolled into the tent inside the tent bag. Packing the tent and poles (both in their respective bags) into your pack separately will yield a significantly smaller tent package, and a pole package that can be easily slid into a corner of your pack. Our poles all fold to 43 cm/17 in.

All product features and measurement values, including tent weight and pole length, may vary somewhat from what is shown in our catalog, other printed items, and on our web site. Such differences can occur because of alterations in the design and production process and/or natural variations in the materials. Fabric dyes have natural variations, so the actual tent color may look slightly different from what is pictured here or on our website.
